

**Gem State Mule
Company**

Your Measurement	Your Saddle Size
Less than 16.5	15" saddle
Between 16.5" and 18.5"	16" saddle
Between 18.5" and 20"	16.5" saddle
Between 20" and 21.5"	17" saddle
Between 21.5" and 23"	17.5" saddle
More than 23"	18" saddle

When in doubt, it's better to go a size larger. If your saddle is too small, you will be sitting on the cantle instead of the deepest part and putting lots of pressure on your mule's back.
